

Irma 4H Beef Club will Sponsor Evening of Entertainment May 17, at 8:15

4H Beef Club Film, Program and Dance Monday, May 17

On May 17 in Kiefer's Hall at 8:15, Don Clayton, Farm Director from C.I.C.A. will show the films taken during his trip in England. A program is being planned which will include a number of songs, musical numbers and a square dance. A dance will follow with Coulman's orchestra. The Sedgewick 4H Beef Club and their D.A. will be our guests. The club will use the proceeds for tours.

NOTICE

To all 4H Beef Club members, everyone is asked to meet at Harry Long's Saturday, May 15 at 1:30. From there we will go to Stewart Fenton's for the semi-finals for the judging team and different points will be brought out. Everyone is asked to attend. Also anyone interested in livestock. Mr. Mac Seville will give a talk on livestock. Everyone is asked to bring lunch.

Almon Archibald,
Press Reporter.

MART KENNEY

Here's Mart Kenney, who is celebrating this year the 20th anniversary of his first cross-Canada radio broadcast. The popular Canadian band leader attained the peak in his profession by the barn-storming technique, combined with almost weekly network broadcasts. With his Western Gentlemen he has appeared personally at nearly every bandstand in the country and by radio—in nearly every home. He specializes in popular music for listening as well as dancing and never forgets that "mom and dad" may be listening while the youngsters are prancing around. Vocalist with the band is Norma Locke—now Mrs. Mart Kenney; they have their own nostalgic disc show twice a week on CBC Trans-Canada in which they look back in thought and song over Kenney's two decades as a leader in Canadian showbusiness.

Bob Proulx Socks Teen Age Thugs

(From The Viking News)

A city taxi driver, Bob Proulx, 9334-107 Ave., told police Friday he was attacked by two youths who threatened him with a knife.

Proulx said he had driven the youths to 106 Ave. and 104 St. at 11:25 p.m. and was giving them change from the fare collected when one of them "snapped" a knife at him.

The driver said that after a brief struggle, he slipped one of the boys in the face and they both fled.

Proulx described the youths as having long, shaggy hair.

—Edmonton Journal

Northern Nuggets

Master Billy Blanchard has been a patient in Mannville hospital for a tonsil operation.

Sunday visitors at the home of Mr. and Mrs. Harley Bars were Mr. and Mrs. George Pugh of Edmonton and Mrs. Lorne McLeod of Wainwright.

Mr. Bill Horn of Edmonton was a visitor at the Dick McRoberts home on Sunday.

Buffalo Coulee W.I. will meet at the home of Mrs. Peter Kellar on Thursday, May 20. It is hoped that the Constituency Convener Mrs. J. Black of Heath will attend this meeting to speak to the group. Roll call—Bring some old or curious article to the meeting and explain a bit of its history or origin. Hostesses: Mrs. Lukens, Mrs. W. D. Ramsay, Contest—Mrs. Prosser. Would any member having a finished handicraft article please bring it to this meeting to hand in to the delegate. This will be the last meeting before the Constituency Conference in Viking May 27.

Kinsella News

The sympathy of this community is extended to the family of the late Mr. O. Overby who passed away in Edmonton May 2.

Mrs. J. Lancaster and Mrs. R. Stevens are spending a week with relatives in Calgary. At a Christening Service conducted by Rev. N. Knight in the United Church on Sunday, May 9, the infant son of Mr. and Mrs. A. Barker was given the names Ronald Allan.

Miss Marilyn Paterson was one of Mrs. S. Lesford's music pupils who took part in the recital held last Friday evening, May 7.

Kinsella high school pupils and chaperons attended the high school "prom" held in the Irma school auditorium Friday night.

Mrs. F. Hajek has returned to her home on Sunday, May 9, after spending the winter in Edmonton with her son-in-law and daughter, Mr. and Mrs. R. Nidrie.

Dave Brown is home again being a patient in the Viking hospital for several days.

Visitors here during the week-end included Mrs. C. Arkinstall, Mr. and Mrs. F. Arkinstall, Mr. S. Arkinstall, Mr. and Mrs. J. Corbett and family, Miss Y. Johnston, Miss O. Jack, Miss E. Holt, Misses O. and A. Mulawka, Russel Mulawka, Mr. and Mrs. E. Powell and family, Mr. K. Arkinstall, all of Edmonton; Mr. S. Stevens of Drumheller, Mr. G. Cannon of Innisfree.

Mrs. M. Garvie arrived home at the week-end from spending the winter with relatives in the U.S.A.

Mr. and Mrs. D. Reid, Miss V. Overby, Mr. L. Overby and sons of Edmonton and Mr. K. Overby of New Westminster, B.C., were here to attend the funeral of the late Mr. O. Overby.

Dale Mader of Wilkie, Sask., who attends high school in Sedgewick was a week-end guest at the home of Mr. and Mrs. K. Overbo.

Mr. and Mrs. G. Paterson and Mr. P. Alcock were recent visitors to Edmonton.

Mrs. F. Murray returned home Sunday morning after an extended holiday spent with relatives and friends in England. Donations to the United Church Improvement Fund in memory of Mr. W. Hodgins; Mr. and Mrs. W. Garvie and Mrs. R. Stevens; Mr. and Mrs. R. Gernack; Mr. and Mrs. G. Paterson; Mr. and Mrs. A. C. Lodes.

To the above fund in memory of Mr. O. Overby; Mr. and Mrs. G. Paterson; Mrs. R. Stevens.

To the Cancer Fund in memory of Mr. O. Overby; Mr. and Mrs. W. Brown and family.

Glen-Coa Gleanings

Mr. and Mrs. George Pedel were Camrose visitors last Saturday.

Mr. Gordon Hollings left last Sunday for Camrose where he has a position awaiting him.

On Friday evening, May 7, members of Sharon Lutter League filled several cars and wended their way to the home of Mr. and Mrs. H. Ruste near Wainwright. They took this opportunity entirely by surprise. A very pleasant evening was spent enjoying various games. Original songs about Arlene and Henry were composed. Carl Gubras as League President, presented them with a beautiful reversible rug from the group. Henry thanked the Sharon friends very feelingly, as also did Arlene. The latter part of the evening saw the couple dressed in their wedding clothes. Arlene looked very beautiful indeed in her lovely dress. As usual, a beautiful lunch brought the happy evening to an end.

FIRST ALBERTA POOL CROP REPORT

The first of the season's crop reports issued by the Alberta Wheat Pool states that there are indications the province's wheat acreage may be down about 5 per cent this year from the 6,340,000 acres seeded to that grain last year. Acreage under oats may be up 2 per cent from the 2,357,000 figure of 1953 and barley acreage may be up 1 per cent from the 3,489,000 acreage seeded last year. These are tentative estimates as lateness in seeding may bring about a further decline in wheat acreage.

The Wheat Pool reports that a small amount of wheat seeded at the odd spot in southern Alberta. Even with the most favorable weather little seeding will be possible before next week. Over the past 20 years an average of 19 per cent of the wheat crop has been sown by April 30. However, the fact that seeding this year is much later than usual should not cause alarm since over the years there seems to be little, if any, relationship between the time of seeding and the yield.

The supply of moisture in summerfallow is generally good while in stubble topsoil moisture is fairly good and sub-soil moisture only fair. The snow of the last two weeks has added considerably to top-soil moisture supplies.

CHRYSLER NEW PUBLIC RELATIONS DIRECTOR

WINDSOR, Ont., May 1—E. C. Row, president and general manager of Chrysler Corporation of Canada, Limited, today announced the appointment of Tom C. McCall, formerly of Toronto and Simcoe, Ont., as director of public relations for the corporation.

Mr. McCall will head an expanded public relations department within the Chrysler organization. With him, as editor of "Chrysler World" will be associated Ralph P. Young, formerly of Hamilton.

In announcing the appointments Mr. Row stated that the public relations department will operate under the direct supervision of the president and general manager. The new move, he added, reflects the company's determination to keep the public, through the press, well informed as to corporation activities and policies.

In 1939 Canadians paid to the federal government in individual income taxes \$47 million; in 1944 the amount paid was \$913 million; in 1953 the amount was \$1,235 million.

Easterly Echoes

Mr. George McLean is a patient in the Wainwright hospital. We wish him a speedy recovery.

Mr. Clifford Firkus is the proud owner of a new electric stove won playing bingo at Holden.

Mr. Gordon Elliott won an end table and lamp playing bingo at Viking.

Mr. and Mrs. Joshua Holt received word that their grandson Mr. T. R. Holt who has been attending McGill University will be doing survey work at Prince George during the summer.

Born to Mr. and Mrs. Hugh Elliott at the Viking hospital on May 9, a daughter, 7lb. 3 oz. A sister for Irwin.

Mrs. Edith Elliott of Edmonton is staying at the home of her son Hugh.

Mavis Robertson spent the week-end at the home of Mr. and Mrs. R. Dempsey.

Keep in mind the re-dedication service of the Irma United Church on Sunday morning, May 23.

When is a Lottery Not a Lottery?

The sale of tickets which give purchasers admission to a jamboree, sports day and fair—and incidentally a chance to win one of 10 automobiles—illegal under the lotteries section of the criminal code?

Ticket Sale Legality To Receive Court Test

(Calgary Herald) Is the sale of tickets which give purchasers admission to a jamboree, sports day and fair—and incidentally a chance to win one of 10 automobiles—illegal under the lotteries section of the criminal code? That is the question which will come before the Alberta supreme court during current sittings at Wetaskiwin.

Justice James Wallace, chairman of a committee appointed by the citizens of the district 1 Provoist to organize the jamboree, fair and ticket sale for the event slated for July 7. The purpose is to raise funds for construction of an arena in the town.

Last December, at two mass meetings of residents of the Provoist district, the plan was approved. Details of the jamboree and fair were then drafted and the tickets ordered.

Since that time some 100,000 tickets have been distributed, according to Mr. Wallace, but it is not known how many have been sold.

About ten days ago RCMP of the Red Deer detachment served a summons on Wallace and, acting under authority of a search warrant, seized about 60,000 unfinished tickets from the printers in Provoist, correspondence, records, and other items connected with the ticket sale.

On April 27 a preliminary hearing was held before Magistrate James Smith at Provoist and at its end Wallace was committed for supreme court trial. Neil D. Maclean, Q.C., Edmonton barrister, acted for Wallace.

Among those called as crown witnesses were the other four members of Mr. Wallace's committee.

The tickets involved have prizes at their top, "Admission to Arena Association Jamboree at Provoist." The printing goes on to say the proceeds are for the arena building fund; that sports, entertainment and prizes will be provided; that 10 cars will be given as prizes; that \$1,000 of the profits will be donated to the Alberta Commercial Travelers' Association crippled children's fund.

It is expected the supreme court trial will be heard either this week or next.

The snowshoe hare of northern Canada goes through an unvarying ten-year cycle from near extinction to super abundance.

HIGHWAY CONTRACT VIKING TO JARROW TO COST \$459,969

EDMONTON — A contract covering construction on Highway No. 14, from Viking to east of Jarrow was awarded last week by the provincial highways department at a cost of \$459,969, Hon. Gordon E. Taylor, highways minister, announced.

The contract covers grading and other work on the 24-mile stretch. The successful bidder was Alex Wilson Construction Ltd., of Lethbridge. Twelve other bids on the job ranged upwards to \$594,286.

Jarrow News

Mrs. Harry Meakin left for an extended trip on Monday morning for Spokane, Wash. There she will visit her mother and other relatives. We wish her an enjoyable trip.

The Jarrow S.S. has had a grand turn out of both children and adults the past two Sundays. This is most encouraging for the leaders.

The Mother's Day service was well attended on Sunday. Mr. Ling preached a very appropriate sermon on the home and family life.

We are glad to welcome Mr. and Mrs. Elmer Helm and daughter Maridell to our district. They are renting the former Tom Overbo farm which was purchased by Geo. Bridge-man last year.

Mr. and Mrs. Bert Yakes are here from Chilliwack, B.C., to help with the spring work on their farm south of town. Sonelf's general store has had a "face lifting" inside which has greatly improved its appearance. Walter Lovig was the artist.

Notice To Creditors And Claimants

In the estate of Thomas Edward Yarr, Late of the Village of Irma, in the Province of Alberta, Bookkeeper, Deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Thomas Edward Yarr who died on the 16th day of February, A.D. 1954, are required to file with Arthur Charles Charter of Irma, Alberta, Administrator with the Will Annexed, of the Estate of the said deceased, by the 30th day of June, A.D. 1954, a full statement duly verified of their claims and of any securities held by them; and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to his knowledge. Dated this 4th day of May, A.D. 1954.

J. A. MacKenzie, Q.C. Solicitor for the Administrator, With the Will Annexed, Wainwright, Alberta. 7-14-21c

SPECIAL 4H BEEF CLUB NEWS

On May 15 our next meeting will be held. It will include a tour which will end at Stewart Fentons. Here we will have a judging competition and possibly a ball game and lunch. On May 17, Don Clayton, Farm Director from C.I.C.A., will be in Irma. We are going to have him show the films which he took during his trip in England. A special program is being planned and a dance will follow. This all should be interesting to the public and the club will use the proceeds for tours. The 4H Beef Club from Sedgewick and their D.A. will be our guests that day. Our achievement day will be held June 10. The Czar 4H Beef Club are bringing 22 best calves over to be shown and sold with ours. Further details will be published later.

Meeting of St. Paul's Presbytery W.A. At Irma, May 29

St. Paul's United Presbytery of Women's Auxiliaries will meet Saturday, May 29 at Irma to hold the annual meeting.

Guest speaker for the occasion will be Mrs. T. M. Dyer of Edmonton, Vice President of Conference W.A. Her theme will be Stewardship.

A great deal of work has been done in preparation for this meeting so it is hoped that all W.A. members will attend where you will indeed be welcome.

Registration will be at 11:30 followed by a luncheon, price 50c, served by the Irma W.A. The meeting immediately after.

What Farm Mechanization Has Meant To Canada

In 1952 with a working force of only 15.6 per cent. of the total gainfully employed, Canadian agriculture produced products for sale of the farm to the value of \$2.8 billion. This tremendous output with a relatively small labour force, has been made possible mainly through the use of modern farm machinery.

Sales of farm machinery and equipment in Canada in 1936 were \$10.3 million; in 1940 they were \$47.7 million; in 1950, \$218.2 million; and in 1952, \$250.3 million.

Reviewing Canadian farm mechanization in the February Economic Annals, a publication of the Economics Division, Department of Agriculture, Ottawa, H. G. Shaw and R. C. Glattauer point out that "the cumulative effect of the heavy volume of purchases of farm equipment and machinery in postwar years has increased the relative importance of that component of total farm investment. In 1936 land and buildings represented 76.8 per cent. of the total investment on Canadian farms; implements and equipment, 10.7 per cent. and livestock, 12.5 per cent. In 1950 the land and buildings component has declined to 65.9 per cent. of the total whereas implements and equipment had risen to 14.3 per cent. and livestock 19.8.

Sales by provinces were about the same in 1941 as in 1951. Ontario was the largest purchaser in 1941 and ran a close second with Saskatchewan in 1951. Ontario purchases alone were almost double the value of those in Quebec and the Maritimes. As a group the Prairie Provinces were well ahead of any other combination of provinces. Their collective share represented 58 per cent. of the total in 1941 and 60 per cent. in 1951.

Most of the important increase in farm machinery has taken place since 1941, and between 1949-52 the purchases of tractors, weed sprayers, forage crop harvesters, hay balers, combines and equipment for use with these machines, and stock watering equipment were prominent.

Some indication of the growth

in machinery on Canadian farms in twenty years is shown in the number of machines per 100 farms in 1931 and 1951. Automobiles increased from 44 in 1931 to 53 in 1951; trucks from 7 to 31; and tractors from 14 to 64. Grain binders declined by ten, from 59 to 49, but grain combines increased in number per 100 farms from 1 in 1931 to 15 in 1951. Electric motors increased from 3 to 32.

LINDALEE NEEDLE-WEAVING

WEAVE A BEREET With the Lindalee Instruction Book of Needle-Weaving (no loom... just a needle), you can weave hats, babywear, bags, accessories, chair seats and other items in the distinctive colors you wish. An ordinary blunt tapestry needle weaves the wool through scrim or plastic. There are 11 different patterns in the book and it costs 45c, ordered through—

TONGUE TWISTER
To be successful, find out where the money is and get there as quickly as you can and when you get there get all you can get and then get out of there with all you could get out of those that are there before those that are there after you get there.

LANDED HUGE FISH
LADNER, B.C.—Faulman Dal Ingram landed a 452-pound sturgeon in the Fraser river. The Pacific sturgeon, as contrasted with the lake sturgeon, found in other parts of Canada, sometimes weighs as much as 1,000 pounds.

The earth ranks third among the planets in distance from the sun.

Funny and Otherwise

"I just saw your family ghost upstairs."

"Did it give you a start?"

"I didn't need one!"

"Old George is terribly mean. Someone ought to tell him he won't be able to take it with him when he dies."

"Listen, old man. If George can't take it with him he won't go!"

"Dad, why is a man not allowed to have more than one wife?"

"My son, when you are older you will realize that the law protects those who are incapable of protecting themselves."

"Tell me what you eat, and I'll tell you what you are," said a lunch-counter philosopher.

Whereupon a meek little man, sitting a few stools away, called to the waitress, "Cancel my order for shrimp salad, please."

Teacher: "This morning I am introducing something new. I want you to put twenty questions to me, one at a time, of course—and see how many I can answer."

A minute's pause, after which a small boy put up his hand. "Please, miss, Willie Wright wants to know how many full stops there are in a sixpenny bottle of ink."

The superintendent of a zoo was mailing an order. He began: "Kindly send two monogoses." Somehow that didn't seem right, so he started again with "Kindly send two mongeese." Finally he settled his problem by writing, "Kindly send me a monogosee." Then he signed his name and added a P.S.: "Send another one with it."

Having promised to send an editor, an old friend of his, a story, an author failed to deliver it on time. Finally the editor sent him a note:—"Dear John—if I don't receive that story within twenty-four hours I'll come and kick you downstairs—and I always keep my promises."

The author's reply came back: "Dear Tony—if I did all my work with my feet, I'd keep my promises, too."

A farmer's barn was burned down and the agent for the insurance company duly turned up and told him that his farm would build another barn exactly like the destroyed one instead of paying the claim in cash.

The farmer was furious. "If that's the way your company does business," he roared, "you can cancel the insurance on my wife!"

A woman struggling for social success called up a friend and gushed: "I hear your husband is to be appointed to a Cabinet post. If that is true, do come to dinner at my place next Tuesday. If it isn't, then do come in for coffee afterwards."

AWARDS FOR WALKING TO SCHOOL
DUNCAN, B.C.—Rural school children here may earn while they learn through cash awards for walking to school. Prizes would vary with mileage covered. Trustees feel this will save the school board a large sum in transportation costs.

OLD SCHOOL BELL
VICTORIA, B.C.—A wooden-handled brass school bell which first called children to classes in Indianapolis in 1888 is being used at the one-room Sylvania school near here. It was brought here in 1905 by Mrs. J. W. Alan, who said she wanted it to go to a school like that it came from.

BIG EGG!
MOSSBANK, Sask.—A hen belonging to George Ingland really excelled itself. It laid an egg weighing four ounces, with a circumference of 6½ inches.

PEGGY

Staking Rush In Flin Flon Area

A staking rush in the Flin Flon area, of Saskatchewan was reported recently by the Hon. J. H. Brodebank, Minister of Mineral Resources.

In announcing preliminary reports of activity in the area, Mr. Brodebank revealed that during the first three weeks of April, a total of 600 claims were staked in an area west and north of Flin Flon, Manitoba, in and around Birch Lake, Missis Lake, Wildcat Lake and Killington Lake.

The new area, which has never been staked before, is roughly 24 miles north and west of the town of Flin Flon. Although the area is relatively new in mining circles, a survey of the area has been carried out during the past few years by Department of Mineral Resources geological survey crews. The results of these surveys are at the present time being compiled and a report is expected to be available this summer.

Meanwhile, the Department of Mineral Resources Mining Records' office reported a decline in the amount of staking taking place in the Athabasca mining district. To the end of March of this year, a total of 1,030 claims had been staked by the Department while at the end of March in the previous year, a total of 4,307 claims had been staked and recorded.

Mr. Brodebank pointed out, however, that development of claims will be the keynote of activity in the Athabasca mining district this year.

Western Pioneer Publisher Dies At Athabasca, Alta.

ATHABASCA, Alta.—Byron Webster Bellamy, one of Western Canada's pioneer publishers, and editor of The Athabasca Echo, Alta., died recently after an illness of about one year, at the age of 75 years.

Mr. Bellamy was born in Newbury, Middlesex County, Ont. He was educated in Ingersoll, and learned his trade on the "Sun" there with his father. He worked in St. Thomas and in Toronto.

He married Belle Knox in Orillia in 1900 and was employed on the "News-letter" for several years, later moving to Huntsville on the staff of the "Forester." After being employed on several other Ontario newspapers, he moved to Medicine Hat in the spring of 1907. In 1926 he moved to Wetaskiwin on the staff of The Times. He left there to take over The Echo, June 1, 1942.

Always a staunch union man, Mr. Bellamy was a charter member of the Medicine Hat local typographical union, and at the time of his death was a member of the Edmonton Typographical Union. He received his 40 year button some time ago. He was a charter member of the Loyal Order of Moose in Wetaskiwin, and last June received his 25 year button.

He was interested in amateur sport and was a member of the Alberta Union of Canada for many years. He served as president in

1925 and 1926. He was elected secretary-treasurer in 1930, a position he held until about a month before his death when he resigned.

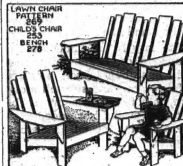

He was vice-president of the Amateur Athletic Union of Canada in 1931-32 and was national registration chairman for two terms, a position he still held. He was a member of the Benevolent and Protective Order of the Elks in Wetaskiwin, and a charter member of No. 328 in Athabasca. He played a major role in the revitalization of the Athabasca and District Board of Trade during the 40's, and served four years as secretary-treasurer. He was elected president in 1950, a position he held until this spring.

He was a member of the first civilian committee of the Royal Canadian Air Cadets in Athabasca and served as secretary-treasurer from its inception until this spring. He also helped organize and was president of the Greater Athabasca Baseball League from its birth in 1946. Besides his widow, who resided in Edmonton, he is survived by a son, Jack, of Medicine Hat, two grandsons, one great-grandson, and one brother, Albert.

Home Workshop

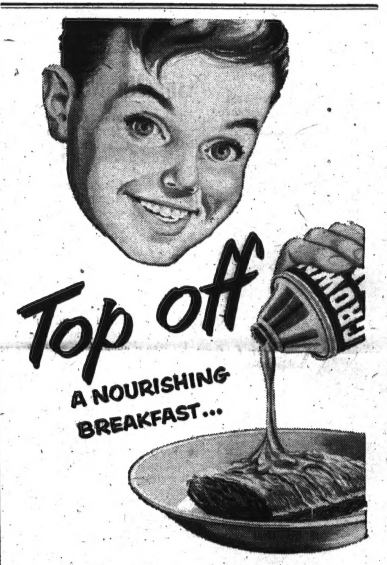

Lamps are important details in home decoration. Consider the overall height and width as well as the shape of the shade when selecting a lamp. The four styles in the sketch are one-eighth of the projects for the amateur craftsman with hand saw, screwdriver, brace and bit. The materials for these beauties are drift wood or weathered branches found in the woods; old timbers or new scraps that any house builder throws away. The fittings are stock in most hardware stores. The pattern gives tracing diagrams for the various parts of the lamps with one-two-three directions for wiring, assembling and finishing. Ask for pattern 364 and enclose 35c with name and address.

This set of matching pieces was designed for the utmost in economy and ease of construction. The various parts are all stock dimensions to be found in the nearest lumber yard. A common hand saw is all that is needed to cut the pieces to size as they are all straight cuts. The use of a pattern showing the amount of lumber to buy in each width and the angles of the saw cuts will prevent waste of material in sawing the members ready for assembling. This calls for a hammer and nails; nothing else except a little paint to seal the joints. The backs are removable units. The numbers in the sketch are 35c each and will be included in the Lawn and Garden Furniture Packet of five patterns for \$1.50.

Department P.L.I., Home Workshop Pattern Service, 4433 West Fifth Avenue, Vancouver, B.C.

Luscious HONEY BUN RING

Quick to make with the new Active Dry Yeast

Hot goodies come puffin' from your oven in quick time with new Fleischmann's Active Dry Yeast! No more spoiled cakes of yeast! No more last-minute trips—this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

HONEY-BUN RING

● Scald ½ c. milk, ¼ c. granulated sugar, 1 ½ tspa. salt and ¼ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ½ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 mins., THEN stir well.

● Add cooled milk mixture and stir in 1 well-beaten egg and 1 tsp. grated lemon rind. Stir in 2 c. once-sifted bread flour, beat until smooth. Work in 2 c. (about) once-sifted bread flour. Knead on lightly-floured board, until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough and roll out into an oblong about 9" wide and 24" long; loosen dough. Combine ½ c. lightly-packed brown sugar and ¼ c. liquid honey; spread over dough and sprinkle with ¼ c. broken walnuts. Beginning at a long side, loosely roll up like a jelly roll. Lift carefully into a greased 8½" tube pan and join ends of dough to form a ring. Brush top with melted butter. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375-450 degrees. Brush top with honey and sprinkle with chopped walnuts.

EDMONTON REPORT

By Donald F. Smith

EDMONTON — Planning for the establishment of a six-week teacher training course this summer is continuing by the Alberta department of education and a recruiting program has started among the province's Grade 12 students.

Regulations covering the course, which was discussed for many hours in the recent legislative session, have been approved by the cabinet and will be sent to high schools throughout the province this week. Designed to place "student-teachers" in classrooms which have been supervised for years by correspondence course supervisors, the six-week course will be operated by the University of Alberta faculty of education.

Supporters of the plan say it is a step in the direction of providing qualified teachers for more than 2,000 Alberta children, almost all of whom are in isolated areas and have been taking their education through the education department's correspondence branch.

Two groups of students will be able to qualify for training in the short course. They are those who are 18 years of age or over and who have either obtained their high school diploma or who expect to graduate this year from Grade 12. The latter group will not know definitely whether they have graduated until some time in August.

The student completing Grade 12 this year will require a written statement from his principal to the effect that there is little doubt he will graduate with the necessary standing in the required subjects. He will have to have obtained 67 high school credits in the high school years to Grade 12 and they must include English, social studies, mathematics and science with an average of at least 60 per cent in each.

Graduation from the summer school course will entitle the student to a certificate designating him as a "student-teacher" for one year only.

Renewal of the certificates for a second year will occur only after completion of a second six-week course in the second summer. A similar restriction faces a renewal application for a third year of teaching. Three summer sessions will be considered as one full year's training toward certification as a teacher.

Qualifications for the second six-week program includes having a recommendation from the district superintendent of schools attesting to the student-teacher's ability during the first year. One of the arguments of legislative members opposed to the plan was that the program did not provide that students entering the course would be allowed to teach only where regularly-certified teachers could not be obtained. This is not contained in the act, as passed by the legislature or in the regulations approved by the cabinet.

Observers on both sides and those who are neutral will be watching with interest this fall to see how many of the classrooms which were empty this year and for past years come under the tutelage of the student-teachers.

Under the act, the graduates of the six-week course will not be considered teachers for the purposes of wages, pension plans or membership in the Alberta Teachers' Association. Maximum salary allowed to be paid to student-teachers is a couple of hundred dollars a year less than the school district's lowest-paid certified teacher.

A lot of Alberta garagemen will think twice before doing too-hasty a job of inspecting cars for provincial safety stickers after the recent announcement by E. R. Hughes, deputy provincial secretary, that five garages have lost their authority to make the inspections.

Not that there are many who are not doing a proper job, but as Mr. Hughes observed: "Among a couple of thousand service stations there are bound to be a few that are not trustworthy." How does the department know when a garage is not performing the tests to a certain standard? Sometimes department inspectors are on the scene

HIGHWAY SAFETY

WINDSOR, Ont., May 10 — More than 1200 dealers of Chrysler Corporation of Canada, Ltd., together with the company's entire field staff are being asked to play a part in the promotion of the Highway Safety Campaign which will be conducted during May by Canada's automotive industry.

In a letter to all of the corporation's dealers, E. C. Row, president and general manager, urged them to give full support to community safety programs. He outlined a three-point program in this connection:

1. Encourage safe driving habits;
 2. Encourage attention to proper vehicle maintenance;
 3. Encourage local public safety participation.
- The field men representing the Chrysler-Plymouth-Fargo, Dodge-DeSoto and Parts and Service divisions were asked, in letters from the general sales managers of each division, to encourage dealers in their areas to give leadership in developing local programs.

HOME ECONOMIST NEWSNOTES

Shirley Hoims, Wainwright.

"Use your Peas and Beans"—a bulletin free for the asking—here is one of the many recipes it contains.

Mock Sausage
3 cups cooked beans
½ cup bread crumbs
2 eggs
1 tsp. sage (if desired)
Salt and pepper to taste
Milk to moisten.

Mash the beans. Mix well with bread crumbs and beaten eggs. Add seasonings, moisten with milk, sufficiently to shape into form of sausages. Dip in beaten egg, roll in bread crumbs (additional to those given in recipe) and brown in a little melted fat.

How to Cook Cheese
Cook cheese at low temperature. High temperature toughens proteins and therefore makes cheese less easily digested.

When making cheese sauce, add the cheese at the last, and cook only until melted. Any uncooked mixture of cheese, eggs and milk to be cooked in the oven should be oven-poached in a moderate oven. "Oven-poach until set" means to place the cheese dish in a pan of hot water and bake it in a moderate oven until a knife, inserted in the centre, comes out clean.

OUTLET FOR HOGS

An expert from the Iowa State College, E. L. Quaife, who has studied the ups and downs of the hog business for the past 34 years is quoted in the last issue of the Country Gentleman as saying that hogs will hit a high of \$28 or \$29, liveweight, in Chicago next summer or around July 1. After the July peak the price will decline to around \$16 in December.

The United States spring pig crop is 8½ per cent over last year's in six top hog states. Another increase of 8 or 9 per cent in hog production is expected next autumn. That would bring pig numbers up to the 1952 levels.

when an approval certificate is issued with but a cursory examination.

Another check involves a departmental system of requiring all the applications for safety stickers to be relayed to the department with a notation by the inspecting garage as to whether the applications were approved or rejected. Take the case of a rejection. If a short while later an application for the same car is approved by a different garage an inspector may investigate to see if the reasons for the first rejection have been corrected.

If they have not, the department has a good case for cancelling the second garage's testing authority.

The garageman has a good reason for wanting to retain that authority: A motorist asking to have his car tested for his annual safety sticker and finding that the garage has not the authority to do the testing, may decide that if the garage is not good enough for the government's program it is not good enough to work on his car.

**COUNTY PLAN FADING OUT**

(Vermilion Standard)

A notable absentee from the debates in the 1954 sessions of the Alberta legislature, was the County system. It will be recalled that during the sittings of 1952 this was the most debated bill of the house, getting more attention at that time even than the six weeks teacher-training course during the session just concluded.

The County act came in for some amendments one year ago but has apparently become a dead issue. With the work of the Coterminous Boundary commission nearing completion little or nothing more will be heard from any areas wishing to adopt the County system of government. There are several reasons for this. To begin with due to the subjugation of education the act never appealed to the people as a whole, but actually the first reason is that nothing can now be gained by any area becoming a county. By this it means that municipal district and school division boundaries are now set by the Coterminous Boundary commission on a fair basis and there will be absolutely no opportunity of any one district gaining a very desirable area for its county at the expense of neighboring territory. This very fact was the chief consideration in prompting councils to consider the change over to the one municipal governing body. Another reason is that counties, from an educational standpoint, have not worked out as expected. Educational tax rates in the majority of the areas established as such, have taken substantial jumps while generally speaking all counties seem to spend on a more lavish scale than where the two governing bodies exist. The County system was designed on the belief that educational bodies were spending more money than was necessary, and that if the collecting body and spending body were one and the same, the educational mill rates would drop. This seemingly has not proved to be the case.

With boundaries set by the Commission, we will be very much surprised if any municipal council or divisional school board from now on makes application to become a county, and is inclined to the belief that we have just about heard the last of the 'County Plan'.

VANISHING RIGHTS

(The Sault Daily Star)

A letter written to the Wall Street Journal asking what has happened to certain fundamental rights, within living years, has aroused interest all over the U.S. and Canada.

The specific rights mentioned are by no means the only ones which have disappeared, but they are far more than most people realize.

The following are the rights which, says the letter-writer, formerly pertained to all:

To work where we wanted if we wanted and for as long as we wanted, free from any outside dictation.

To be free from coercion and tribute to any group.

To receive our full wages which we could save, spend or invest.

To pay our proportionate share of any necessary taxes.

To bequeath, without penalty, to our families and friends.

To give, without penalty, to our families and friends.

To sell property, without penalty, to our relatives on the same terms as to strangers.

To keep records of our affairs satisfactory to ourselves, without penalty.

To keep our papers and property free from unreasonable search and seizure.

To insure our future, or not, as we pleased, and if so, to choose, or not, the agency best suited to our purpose.

To operate a free enterprise without intimidation by a group which disliked our methods of operation.

To be free from double taxation.

This was written by a man whose ancestors doubtless oiled their muskets for a rendezvous at Lexington in protest against taxation imposed by George III.

It might be written in this country by men whose forbears forged the pikes and shouldered flintlocks for an equally significant rendezvous at Montgomery's Tavern.

Maybe Americans—and Canadians—need a new rendezvous with destiny.

More than three million squirrels and muskrat pelts are taken in Canada from 50,000 year old by Canadian trappers each year. Ivory tusks found in the Yukon.

ManagerUnsatisfied Judgment
Fund Has Surplus

Operations of the Unsatisfied Judgment Fund showed a surplus of \$3,357 for the 1953-54 fiscal year, according to E. R. Hughes, Deputy Provincial Secretary.

The fund, which is used to pay court judgments in vehicle accident cases where the responsible person is not insured, had a balance of \$346,270 at March 31, 1954.

Total receipts for the fiscal year were \$354,371, of which \$313,317 was provided by the \$1 fee collected from each Alberta motor vehicle registration. Bank and debenture interest and \$27,197 recovered from judgments previously paid out of the fund made up the remainder of the receipts.

A total of \$215,310 was paid out of the fund for judgments for bodily injury and property damage, and \$98,615 for medical and hospital expenses. Fees paid solicitors retained by the Crown amounted to \$13,888 while salaries of clerical staff employed to administer the fund totalled \$20,170.

Viking News, Printers

During 1953, 8,378 men were added to the strength of Canada's armed forces.

Ringing in the Ears

Disinnes, nausea, ringing noises in the ears, impaired hearing—these are symptoms characteristic of Meniere's disease. It is named for the French physician, Prosper Meniere, who first described it in 1861, a year before his death.

One of the most illustrious victims of this disease, an illness which has become more prevalent in recent years, was Ludwig von Beethoven.

Since the composer's time many theories have been advanced to explain its cause, ranging from emotional tension to vitamin deficiency. Today most scientists agree that it results from some disturbance to a nerve center of the inner ear.

Standard surgical treatment for this condition has been to destroy the nerve center, called the labyrinth, a procedure that cured the major symptoms of the disease but at the cost of causing total deafness in the affected ear. In 10 to 15 per cent of all cases, both ears are eventually affected.

But, if Beethoven were alive today, he might be able to hear his own music. An operation devised by Dr. Samuel Rosen of New York has given new hope of a normal life for sufferers from this crippling disease.

Dr. Rosen's operation cuts only one nerve and does not destroy the vital labyrinth. Employed on fifty patients, this operation resulted in striking relief to 82 per cent of the cases, with no damage to the hearing.

From birth to age 16 family allowance payments cost \$1,168 for every Canadian child.

District Agriculturist)

ARTIFICIAL BREEDING
FOR DAIRY COWS

(From The Viking News)

Of interest to many dairy farmers in this area has been the news of Artificial Insemination or Breeding that has started recently. This service is being provided through the Ryley Dairy-men's Association who are going on an "all-out" effort to organize the dairy farmers of this area to join their Association and accept this service. At the present time, the services to Ryley Association are offered by the Edmonton Artificial Breeding Unit. Several cows have been already serviced in this district by technicians from the above unit. A local man is now training with the Edmonton technicians and it is hoped that he will soon be qualified to act as a technician for the local association. Artificial Insemination, for the present, is restricted to use of services of dairy bulls. Semen of all four dairy breeds, namely Holstein, Ayrshire, Jersey, and Guernsey is being flown into Edmonton and is available to members of the Ryley Association. There is no restriction to breed or type of milk cows that can be inseminated. Most farmers in this area have grade cows, and a fairly large number of milk cows in this area are of mixed or unknown breeding. The present service aims to provide artificial insemination to owners of such cows. As a matter of fact, the greatest advantage from this service should be the improvement of quality of our dairy cattle. The bulls used to provide this semen are of high quality with high records, and their offspring should be a great improvement to the milk herds used presently in our district.

For the present, the Ryley Dairy-men's Association feels that an area of thirty-five miles radius (which would include most of M.D. of Beaver) would be large enough. Their aim is to obtain approximately a thousand cows serviced in such an area, and in that way be able to offer this service at a nominal charge per cow.

In respect to results of conception through artificial insemination, the Edmonton unit reports approximately 75 per cent conception on first service and if second is required about 95 per cent on second service. In other words, the results are very encouraging, even though artificial insemination has been carried out for only a short period (approximately 6 mos.) by the Edmonton Unit.

Dairymen, living within 35 miles of Ryley, who are interested in obtaining services of Artificial Insemination should contact one of the following officers: E. M. Magnuson, President; or Wm. Wines, Secretary, both of Ryley.

MASTER FARM FAMILY
AWARD

We wish to announce that this program is sponsored by the Alberta Department of Agriculture and will be continued this year. This program is based on the following principles which are the slogan of this competition, namely "Good Farming—Right Living—Clear Thinking." The purpose of this program is to honor farm families that are living up to these ideals. The writer feels that we have farmers in this district that are worthy of being nominated for this award. The nomination has to be executed by the neighbors. That is, three neighbors or other farmers who feel that there is some particular farmer in their district that has achieved noticeable success with his farming enterprise as well as community living, these three can nominate the prospective candidate to this award. Nominations must be filed with your resident D.A. (in this case the writer) by June 1, 1954. Nominations forms are available from this office.

The nominee must fulfill the following requirements to be eligible:

1. The family must be Canadian citizens.
2. The head of the family must be the owner-operator or lease operator of the farm.
3. The head of the family must

have spent twenty (20) consecutive years in actual operation of a farm, in case of veterans absence on military services will be accepted in lieu).

KIND OF POTATOES
FOR SEED

Use healthy good-sized tubers. Small potatoes may be satisfactory if the smallness is due to the climatic conditions or late planting. However, if potatoes are small due to diseases, which is quite possible, do not use them. Diseased tubers propagate more diseases and contaminate soil. If you are suspicious of bacterial ring rot or other diseases, buy certified or registered seed. In respect to varieties, there are several varieties of these. The following are satisfactory for this district:—Early Varieties: Garter's Early Favorite, Wanda, Midseason—only one, namely Irish Gobbler, Late: Nettle Gem, a very popular variety.

CNR TRAIN
TIME CHANGES

WINNIPEG, April 26 — The Canadian National Railways announced today revisions in its western region timetable to coincide with the changeover from standard to daylight saving time on April 25.

Railway timetables will continue to read in standard time but adjustments have been made for the convenience of passengers and to facilitate mail deliveries.

The Continental Limited will leave Montreal 15 minutes later but will arrive and depart from western points on the same schedule as at present.

CNR timetable changes in Alberta are:

Service between Edmonton and Whitecourt has been increased to tri-weekly from twice daily. Trains now will leave on Mondays, Wednesdays and Fridays, returning Tuesdays, Thursdays and Saturdays.

Train 336 between Delburne and Calgary will depart one hour later than previously.

The tri-weekly train between Mirror and Edmonton will leave Mirror at 8 a.m. instead of 10:30 a.m. arriving in Edmonton at 1:10 p.m. instead of 3:35 p.m.

The train between Edmonton and Edson, Sundays, Tuesdays and Thursdays, will leave at 4:00 p.m. instead of 1:00 p.m., arriving in Edson at 8:50 p.m. instead of 5:50 p.m. The return trip to Edmonton will be made Mondays, Wednesdays and Fridays, with trains leaving Edson at 8 a.m. instead of 12:50 p.m., arriving Edmonton 12:20 p.m. instead of 5:10 p.m. Trains will run three times weekly between Edson and Jasper—Tuesdays, Thursdays and Saturdays instead of Sundays, Tuesdays and Thursdays—leaving Edson at 10:10 a.m. in place of 6:30 p.m., and arriving at Jasper 3:30 p.m. instead of 10:10 p.m. Returning, the train will depart Mondays, Wednesdays and Fridays at 9:30 a.m. instead of 8:40 a.m., reaching Edson at 3:30 p.m. instead of 12:20 p.m.

Trains 87 and 88 on Friday between Alliance and Edmonton have been cancelled, as have trains 341 and 342 between Alliance and Camrose. Trains 341 and 342, however, will operate Tuesdays and Saturdays between Alliance and Edmonton, returning on Mondays and Wednesdays. A train will run on Thursdays between Alliance, Camrose, Tofield, and Edmonton, returning to Alliance Fridays.

Service between Lyleland and Luscar has been speeded up by 30 minutes. Train service between Lyleland and Cadomin has been discontinued.

Increased service has been introduced on the Grand-Centre Bonnyville run, with trains leaving Grand Centre daily except Sunday and Bonnyville daily except Saturday. This replaces a tri-weekly service.

Other minor revisions have been made and the travelling public should consult with local CNR agents for further information.

A TIMES WANT AD PAYS

THE
ALBERTA GOLDEN JUBILEE
ANTHOLOGY

The Golden Jubilee Committee of the Government of the Province of Alberta has announced the publication in 1955 of a volume to contain the best original work of Alberta authors—fiction, poetry, drama, articles and radio scripts; and has appointed an Editorial Board to make the necessary selection. Hereinunder are the rules and regulations to govern the submission of manuscripts.

Eligibility and Rules:-

1. Any resident of Alberta is eligible to submit manuscripts.
2. Manuscripts must be original and previously unpublished, typewritten and double-spaced. The editors, however, reserve the right to modify this regulation if necessary.
3. A pen name may be used for publication.
4. Authors desiring the return of unacceptable manuscripts please enclose a self-addressed envelope to facilitate their return.
5. Manuscripts required consist of articles relating to Alberta, historical or general, up to a length not to exceed 2,500 words; fiction on any theme, locale or period, up to a length not exceeding 5,000 words (a shorter length is preferred) poetry not to exceed 42 lines. Radio and dramatic scripts will also be considered. Since the Editorial Board reserves the right to assign feature articles, authors with articles in mind should first write to the Secretary outlining their ideas or idea. Assignment, however, does not necessarily mean acceptance.
6. Under a standard contract agreement with the publisher, McClelland and Stewart, royalties deriving from the sale of the book will be paid to the Edmonton Branch, Canadian Authors' Association. After deducting necessary expenses, the Edmonton Branch, Canadian Authors' Association will pay such monies to the authors published in the book on a pro-rata basis.
7. All rights (inclusive of second rights, reprint, periodicals, TV, and motion picture) are to be held by the publisher.
8. The Editorial Board will evaluate all scripts, reserving the right to alter, rewrite, condense, and combine manuscripts. Final selection of manuscripts, however, will be made by the editors of McClelland and Stewart.
9. The submission of any manuscript signifies an acceptance of all the rules, regulations, and conditions as above stated.
10. DEADLINE — All manuscripts must be in the hands of the Secretary by June 30th, 1954.
11. Manuscripts should be sent by first-class mail to:

Mrs. Margaret Johnson, Secretary, Editorial Board,
7615 - 111th Street, Edmonton, Alberta.

Further information may be obtained from Blake MacKenzie, Secretary, Golden Jubilee Committee.

Government of the Province of Alberta

WANTS ADS DO BIG WORK

Alberta Men Head For Yukon To Seek Fortune In Spuds

(The Herald-Tribune, Grande Prairie, Alta.)

Excitement showed in the young men's movements as he clawed anxiously at the string around a paper package in the office of District Agriculturalist Jack Stronach at Grand Prairie.

"I just got these samples and haven't had a chance to look at them yet," he said as he dipped in his hand and withdrew a medium sized reddish looking potato.

"Looks pretty good, from a rather deep eye. Should do all right up there."

"Up there" is 80 miles north of Whitehorse, where young John Steifox, of Rocky Mountain House along with three other young men have taken up 360 to 400 acres of land with a view to market gardening.

The foursome, three of them University of Alberta graduates in agriculture and all in their early twenties born and raised on farms, have drawn a few laughs from old plow pushers. But to them the proposition looks sweet. From their Pelly Farm, on the Pelly River and just off the once famed Dawson

Trail, they plan to supply much demanded potatoes, carrots, cabbage, parsnips and beets, along with a few other items to the gold rush famous Dawson City, the mining boom town of Mayo and the Yukon Capital of Whitehorse.

With potatoes selling for about 15 cents a pound, carrots at a quarter and other vegetables at a similar level, the boys appear to have something. Potatoes here run about 5 cents now. In the Yukon country, milk is now selling for \$1.00 per quart and baled hay is going into Mayo at \$240 per ton. It is about \$20 here.

In addition to that, the farm they're taking over isn't as new to farming as many people would think and to John Steifox himself the country is pretty well known.

First farming on the land they've taken over was done back in 1880 by prospectors who found they could make more money selling vegetables to sourdoughs than they could hunting gold.

Young Steifox, who comes from a long line of "folks with gravel in their shoes" spent three summers in the territory, attached to the Dominion Government Experimental Sub-Station at mile 1019 on the Alaska Highway, and studied plots on the farm the boys are taking over.

With him are Hugh and Dick Bradley, brothers from Lacombe, and Buck Godwin from Sanguito. The farm they're moving onto, formerly owned by a family more interested in fur trading and trapping than in farming, is complete with eight-room frame house, 20 acres broken, a small saw-mill, machine shop, four horses, a couple of head of cattle, sound log stables and some machinery.

A tractor, some household equipment, seed, and small machinery was being taken up as two of the boys passed through here. The other two will come later bringing with them a few Hives, some little pigs and a few other items.

Lack of competition, a big demand, good prices and a slight risk of adventurous souls lead the boys into their decision. Their nearest farm neighbor is 90 miles away but there are a few trappers in their neighborhood.

Vegetables for the three points they plan on serving are now shipped from Vancouver to Skagway then by train, or they are trucked in from Edmonton. The boys think that even with the mileages they have to face—180 to Whitehorse, 90 to Mayo and 120 to Dawson City—they can compete with imported goods.

At and rate, in the words of John Steifox as he climbed in his three ton truck to push north from here, "We're going to give it a darn good try and whether we make any money or not I think we'll have fun."

At and rate, in the words of John Steifox as he climbed in his three ton truck to push north from here, "We're going to give it a darn good try and whether we make any money or not I think we'll have fun."

LARGEST CHEQUE

MEDICINE HAT, Alta. — A cheque for \$2,373,083, proceeds from sale of debentures to cover the cost of a new power plant, was deposited by the City of Medicine Hat. It was the largest individual sum ever handled by this municipality of 17,000 population.

DOCTOR HONORED

QU'APPELLE, Sask. — A bay and island in one of the scenic areas of Northern Saskatchewan will be named after Dr. M. C. O'Brien of Qu'Appelle, who has been a country doctor in Saskatchewan and Manitoba for 37 years.

Drive With Care!

PROSPECTOR WELL—This is a general view of the drilling rig and equipment at the Canadian Gulf-Canadian Devonian Quinn No. 9 light gravity crude oil and natural gas discovery northwest of Frobiisher. The light-colored cloud at the left end of the picture is natural gas being burned off during tests being conducted recently at the well site.

Load Limits Announced For Alberta

A weight limit of 56,000 pounds for semi-trailers and truck-trailer combinations operating on certain highways in Alberta is permitted in new Highway Traffic Board regulations governing the weight of truck loads.

The maximum weight limit is allowed on the following sections of Alberta highways: No. 1 Highway, Wainwright to Banff; No. 2 Highway, Calgary to Edmonton; No. 3 Highway, from Smith to Triangle, from Triangle to Peace River and from Grande Prairie to the British Columbia border; No. 4 Highway, from Medicine Hat to the British Columbia border; No. 5 Highway, from Lethbridge to Coquitla; No. 9 Highway, Calgary to Lacombe; No. 12, Lacombe to Compo; No. 13, Wetaskiwin to the Saskatchewan border; No. 16, Lloydminster to the Jasper Park gates; No. 18, Clyde Corner to Westlock; No. 23, Monarch to High River; No. 34, Triangle to Grande Prairie; and No. 44, Westlock to Smith.

On all other highways, the maximum gross weights allowed are: 24,000 pounds for conventional two-axle trucks; a net of 27,000 pounds for cab-over-engine trucks; 38,000 pounds for conventional and 41,000 for cab-over-engine tandem axle trucks; and 42,000 pounds for combinations having three axles only.

The five percent tolerance on weights, which was allowed under the former regulations, has been changed to a tolerance of 2 1/2 percent, or 1,000 pounds, whichever is the lesser.

The change in maximum loads will enable transcontinental trucks to operate more efficiently in Alberta. Previous maximum weight allowed was 40,000 pounds and trucks travelling with loads heavier than this limit from provinces or states with higher load

Straw Mulch Stops Soil Erosion By Wind

REGINA.—The straw mulch is the best protection against wind and water erosion. Cultural operations should be planned to make the maximum use of all crop residue. Implements should be properly adjusted and operated at a speed so as to prevent undue pulverization of the soil or burial of straw and stubble.

When insufficient straw is available to give adequate protection other means of control must be used. Cultural operations on fallow may be delayed until there is sufficient weed growth for a trash cover, though weeds are not as effective as straw for they decay more quickly. The other alternative is to create a rough cloddy surface by the use of implements such as the cultivator, plow or harrow. Any surface condition that reduces wind velocity by traps moving soil particles will help to control erosion.

Erosion may start from a small area such as a sandy knoll and spread over the entire field. Such danger points should be carefully watched and control methods adopted at the first sign of danger. It is much easier and cheaper to prevent than to stop erosion, says Dr. Doughty. One severe wind may destroy a crop as well as cause other serious loss and damage.

Funny and Otherwise

A father was trying to explain his wedding photographs to his youngest child. At last she seemed to understand. "Oh, I know what you mean. That was when Mummy came to work for us."

Mother: "Did you thank Mrs. Jones for the lovely party she gave?" Mary: "No, Mummy. The girl leaving just before me thanked her, and Mrs. Jones said, 'Don't mention it, so I didn't.'"

"Look at the way baby is working his mouth," said Mrs. Brown. "Now he proposes to put his foot in it."

"H'm," replied her husband. "Hereafter, that's what I did when I proposed."

"I don't know, George; marriage seems such a solemn thing. Have you counted the cost?" "The cost, darling? Why, my cousin's a clergyman. He'll marry us for nothing."

"No," replied the mother, "I don't think I shall buy a whistle for my little boy, because the other day he nearly swallowed one."

"Well," said the insistent salesman, "we have some nice bass biddies I could show you."

After listening patiently to the first part of an orchestral concert, little Johnny asked his father: "What is that book the conductor is reading?"

"That's the score, Johnny."

"Oh! Who's winning?"

A man who wanted to be a centenarian was told by his doctor to give up drinking and smoking.

"And will I live to be a hundred?" asked the patient.

"No," said the doctor, "but it will seem like it."

The M.C. at a dance approached a girl in a strapless evening dress. "May I introduce Mr. Smith," he said. "He's an authority on structural engineering and he wants to ask you something."

"Elate to me, she likes the sound of Harold's voice," said Mary.

"Yes," Jane replied, "she thinks there's a ring in it."

"Joan got only one mark for her sums today, Mummy, so she altered the one into a five and was found out."

"I hope you never do a thing like that, dear."

"Course not; I'd have made it into a four."

"Don't give up yet, caddie," said the hopeless golfer. "The ball's probably in the last place you'd expect it to be."

"Right, sir. I'll go and look in the hole."

MAGAZINE RACK

PATTERN 319

The dovetail joints used as joinings add a decorative note to this magazine stand. The rubbed edges and oil finish supply the charm that belongs to fine hand-crafted furniture. Note the handle for carrying to where it is most needed. The top shelf gives the added usefulness of a small table. The pattern provides for tracing the curves of the end members, and the scalloped front directly onto the wood. If you do not have a power saw for cutting these curves, better trace them onto your material and have this done for you. The cost of the pattern is 35c. Include \$1.50 additional and receive the Useful Tables and Stands Packet containing over twenty-two hundred square inches of tracing drawings and directions.

This compact dressing table has a kidney shaped top. Make it of clear white pine except the sides and bottoms of the drawers which are quarter-inch plywood. Make the frame of any close grained solid stock. The pattern carries directions for cutting and stitching a pleated, a ruffled and a circular skirt; and how to estimate the amount of yardage required for each. All directions are shown with large sketches. Note the ample storage capacity of the drawers which greatly increases the usefulness of this piece. The pattern for this dressing table is included with the Bedroom Furniture Packet at \$1.50 or if ordered separately the price is only 35c.

PEGGY: "GEE, YOU GOT THE BEST WORKS IN THE NEIGHBOURHOOD—IM GONNA FIGHT IT!"

OUR COMPLETE SHORT STORY—

KNIT-WIT

By Minor Steele Kelley

ON HANDS and knees, Jim groped under the movie seats. "Here it is," he whispered to Elaine, but, alas, no, he had grabbed the ankle of a woman. The woman whacked him smartly with her gloves. Jim explained that he merely was searching for the ball of yarn that his wife had dropped but the woman rose in a huff, elbowed her way to a seat elsewhere. "Lucky she didn't call the usher," Jim gasped as he struggled back into his seat. "I can't find your yarn."

Elaine paid no attention. She was knitting while watching the screen.

Jim was angry. Knitting, knitting. Elaine was always knitting, and now he probably would have

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed by such handicaps. FASTERITE, an alkaline (non-acid) powder to spritz on your plates, keeps false teeth more firmly set. Gives confidence, feeling of security and added comfort. No gummy, sticky, sticky taste or feeling. Get FASTERITE today at any drug counter.

to make a row by row search. "I bet it rolled to the orchestra," he muttered aloud.

"Shhh," she retorted along with several others.

He searched again on all fours but an accidental kick in the face from a man was his only reward.

A couple of hours later Jim, elbowed have recited the hero's lines verbatim and not because he was a genius. He'd seen a dull picture three times!

They waited for the theatre to empty. Then Jim grimly searched for the lost wool as Elaine sat knitting, knitting.

"I want to finish this sweater by Uncle Alvin's birthday," she explained when he'd asked for help. Finally the wool was recovered. Over and under the seats Jim followed it, rolling it up as he went.

Elaine was still knitting as they left, yarn stuck precariously in her pocket. Jim was murmuring something about it being midnight and the hard day at the office ahead of him, when Elaine grabbed his arm. "There's our bus. We'll have to run."

Jim fell breathlessly into his seat.

"Yeecowow!" screamed Elaine. The driver screeched to a halt. "What's the matter, lady? Sick?"

"No, my wool. I must have dropped it when we were running."

Jim stood up wearily and followed the string outside. Winding it up as fast as he could, he made his way back. Other passengers were laughing as they watched his progress. Elaine was knitting. As Jim sheepishly climbed in, the driver asked sarcastically, "Ever hear of a bus schedule?"

Jim tossed the ball in Elaine's lap. "Well, anyway, we are amusing the passengers," he remarked as she knitted.

Suddenly Jim could stand it no longer. If it were another man that took up her time, Jim could beat him up. If her cooking were less delicious or the house less spic, he could complain. If Elaine were less beautiful, his eyes might stray to other women. He was fed up with knitting. There wasn't a sister or an aunt who lacked a sample of Elaine's art. Jim himself seemed a disgrace. But at his untidy colored argyles, the envy of the fellows at work, but he would gladly have sacrificed them all if Elaine had never discovered her power over the needle.

It was "Jim, hold this skein while I wind the ball," just as he was about to settle back with a magazine. "Shh, Jim, how can I follow directions with you, chattering," when he was about to tell her of his new raise. "Jim, you made me drop a stitch," when he stole a kiss.

"Elaine, if you don't put down those needles this instant I am going to get off at the next stop and I am not coming home."

Elaine kept on knitting.

A woman giggled. Jim jumped out and stalked down the street. He must have walked for hours up and down a single block. Jim was fighting a losing battle with himself. Cold and tired, he missed Elaine. Surely she'd learned a lesson by now.

The clock in the church steeple struck two. Convinced himself that he had triumphed he hailed a cab. Soon he was at his door. It was open and Elaine was in his arms.

"Darling," she murmured, "I was so frightened. Darling, you must never leave me again. I couldn't stand it."

Jim knew in his heart that he couldn't stand it again either.

"They settled in the living room for a good-night cigarette."

"This is the life," Jim thought. "Show them you are master and all goes well."

The room was quiet. There was no clicking of knitting needles. Jim sank back in his chair, enjoying the peace.

"Honey," he said to Elaine, "Do you know what the boss said to . . ."

"Shh!" interrupted Elaine, "I'm counting stitches, four five, six, seven . . ."

Indonesia has a wet and a dry season, but no winter, spring, summer or fall.

IN MANITOBA

Virus Research Project To Be Aided By Health Grant

Research being carried on at University of Manitoba to develop virus laboratory procedures will be aided by a federal health grant, it was announced recently by Hon. Paul Martin, federal health minister.

Mr. Martin said that a General Public Health Grant valued at \$14,780 had been approved for Manitoba under terms of the National Health Program to assist in the increase of facilities for, and the use of, diagnostic procedures for virus diseases.

The minister noted that procedures to be developed would be used for epidemiological surveys, in applied research and for the investigation of some virus diseases. Research will be carried out, the minister said, in the Department of Bacteriology of Winnipeg General Hospital under direction of Dr. J. C. Wilt, the University of Manitoba's bacteriologist. There will be collaboration with the Virus Laboratory at Ottawa and with the Provincial Laboratory, which is already carrying out serological virus methods to develop a more comprehensive set of procedures for the clinician in

New Stamps Bear Queen's Portrait

New stamps bearing the same portrait of the Queen as appears on the recent five-cent issue will be available in one to four and six-cent denominations June 10, 1958, to bear a portrait of the Sovereign.

The six-cent stamp will be the first of that denomination since 1898 to bear a portrait of the Sovereign.

Cote said sales of the orange stamp were not expected to be large but it would be convenient for postage on first class mail going to countries other than those in the Commonwealth, France, Spain and North and South America.

NEW NICKEL REFINERY
EDMONTON—The \$17,500,000 nickel refinery under construction at Fort Saskatchewan is expected to be opened about the middle of May. Eight hundred men have been engaged on the project for the Sherritt Gordon Mines Ltd., and it will employ 250 men in operation.

Although many insects count their lives in hours rather than in years, some queen ants may live for 18 years.

IN SASKATCHEWAN

Livestock Economy Aided By Community Pastures

That PFRA Community Pastures play a large part in the livestock economy of Saskatchewan's southwest, is illustrated by some figures in connection with the 15 pastures which are supervised from the Swift Current branch office, with R. C. Graham as agriculture supervisor.

That PFRA Community Pastures play a large part in the livestock economy of Saskatchewan's southwest, is illustrated by some figures in connection with the 15 pastures which are supervised from the Swift Current branch office, with R. C. Graham as agriculture supervisor.

In 1952-53 there was a total acreage under fence of 600,240 with 17,029 patrons using it for 27,395 cattle during the grazing season; this included calves born in the pasture. 191 horses were handled, 6,891 cows bred; percentage of calf crop was 94 percent; vaccinated for blackleg, Edema and Scepticemia, 7,685; sprayed at pasture for warble fly control, 10,261 and sprayed for horn fly control, 4,145.

Under the regressing program since the start of PFRA Community pasture construction in this area, 45,846 acres have been regressed, mostly with Created Wheat Grass. As a consequence, in addition to increasing the grazing capacity of the pastures, hay is cut and baled for feed for bulls and saddle horses. Feed grains are purchased from local farms.

The Nanhly Bull Station, situated nine miles south of Consul on historic Battle Creek, is maintained for the development of bulls for service in PFRA pastures. Bull calves are purchased from breeders of Furbred cattle in Saskatchewan and Manitoba at from six to eight months and developed at the Station until they are 1.5 years old. The bulls are then trucked out to be pastured for service. At the present time there are 175 bulls at the Station.

The latter part of last season was very dry over the most of this territory and water reserves in dams, dugouts and sloughs were depleted considerably. However,

LARGE FIRING RANGE

EDMONTON, Alta. — The Air Force here announced arrival at Cold Lake, 150 miles northwest of Edmonton, of an advance party to open the new RCAF weapons range there. Largest firing range in Canada, Cold Lake will provide armament training for fighter pilots.

FIRST RED RIVER STEAMER

The first steamboat to ply the Red river in Manitoba was launched in 1859.

Local News

The CGIT met last week with Miss Shirley Holmes, District Home Economist. She gave a demonstration in making fancy sandwiches. The girls fully enjoyed the demonstration and even enjoyed eating the sandwiches when the demonstration was over.

A good number of Irma folk went to Sharon Lutheran Church on Sunday last and greatly enjoyed the fire program given by the Camrose Lutheran Choir.

Mr. and Mrs. Elmer Helm (the former Dickie Bohrer) and small daughter have taken up residence on the George Bridge farm north of Jarow. Welcome home, Dickie.

So much has been done to renew and beautify the whole interior of the Irma United Church that a re-dedication service has been planned for the morning of Sunday, May 23. It is hoped that every friend and adherent of the United Church in this community will be able to be present at this service. Arrangements will be made for a public address system and accommodation for an overflow gathering in the basement of the Church.

Mrs. J. C. McLean who spent the winter months in Edmonton was back in Irma for Mother's Day.

Mr. L. Robertson, Mavis and Douglas of Edmonton were Irma visitors last week-end.

Mrs. Christine McLeod, long-time resident of Irma, passed away in Wainwright hospital early this week.

Two weeks ago the Irma WMS packed and shipped two parcels totalling 150 lbs. in weight for Korean relief. The contents of these parcels had been donated and is of a very

high order. More clothing, etc., and offers for still more keep coming in and the WMS workers plan to send yet another parcel or parcels in June. For the two parcels already shipped the overseas shipping charges were \$15.00. At present the WMS does not have the funds to ship the June parcels. But the ladies are accepting and gathering up all the clothing, etc., which they can in faith that the necessary money will also come in to defray the shipping costs.

Mr. and Mrs. A. T. Raham of Elk Point were renewing old acquaintances here on Sunday last.

Miss Charlotte Anne Milne and friend from Edmonton visited at the A. C. Milne home last week-end.

Shirley Mae Brown of Edmonton spent the Mother's Day week-end with her parents here. Heartiest congratulations and best wishes to Mr. and Mrs. Alex Smallwood (the former Helen Elliott) whose marriage took place at the United Church manse on Wednesday, May 5.

Mrs. P. J. Hardy of Edmonton was an Irma visitor last week-end with Mrs. F. M. Hill and family. Her niece, the former Alma Hill, was also visiting.

Born to Mr. and Mrs. L. H. Owen at the Wainwright hospital on Saturday, April 24, a son.

Mr. and Mrs. C. Anquist and family motored to Castor on Sunday last to visit Mrs. Anquist's sister, Mrs. P. Webber.

Miss Tweedy, our Health Nurse, has asked the Irma Branch of the W.I. to assist in canvassing for Blood Donors for the Blood Donor Clinic to be held in Wainwright. The W.I. ladies plan to have a bus on hand on the evening of May 25. This bus will accommodate 36 donors. If there are more than 36

volunteers it is expected that cars can be arranged for that evening. Will anyone who is able to volunteer for this very worthy cause please contact Mrs. R. O. Larson, phone 30, or Mrs. D. H. Gunn, phone 6. The Wainwright Clinic hours will be 7 to 9 pm. on the evening of May 25.

We are sorry that the following was omitted from the advertisement last issue concerning the hairdresser who comes to Irma all day Tuesdays and half day Wednesdays. The ad should have included this line: "Gives Cold Wave or Machine-less Permanents."

The high school dramatic class will present 5 one-act plays in the school auditorium. Two plays will be presented on the evening of Thursday, May 27 and 3 on the evening of Monday, May 31. Watch for more details concerning these plays.

The following names should have been included in the obituary of the late Mr. Lloyd E. Allen: Among those who sent flowers the name of Miss Olive Jack. A donation to the WMS from Mrs. Ella McRoberts. To the Protestant Home for Children from Mr. and Mrs. Wm. Mason and family.

FOR SALE—Domo cream separator, 600 lb. size, in good working condition. — James Jackson, Irma, phone 811. **14c**
